

The Institute for Phenomenal Touch®  
Presents  
The Award-Winning Extraordinary  
Three-Dimensional Neck Moves Workshop  
Taught by Leslie Bruder, founder of Phenomenal Touch Massage

*"I have never been touched or moved like this before in my life. Leslie's work is a whole different animal...utilizing gravity, three-dimensionality, natural fulcrums, seamless transitions, muscle shortening, speed limit and hooking on to the tissue, she redefines massage into a dance of grace and yumminess!! If you want to learn to touch and melt the body in a whole new way, you must take this class!"*
